

REQUEST FOR PROPOSALS

The Arkansas Black Mayors Association (ABMA) is accepting sealed responses from qualified engineering and natural resources planning consultants for the development of Watershed Project Plans following the policy set forth in the USDA Natural Resources Conservation Service (NRCS) Title 390, National Watershed Program Manual (NWPM), Part 501. Fourteen (14) Watershed Project Plans to encompass a total of 36 watersheds (a combination of 10-digit and 12-digit HUCs) throughout East, Southeast, Southern, and Southwestern Arkansas will be developed through this effort. The ABMA anticipates contracting with multiple consultants to achieve this goal. Qualified firms may propose developing from one (1) to fourteen (14) plans and may identify which specific plans they propose to prepare. Small, minority, and women-owned businesses are encouraged to submit their qualifications for these projects. Packets containing complete information may be obtained by contacting Karen McCurdy by email at karen.mccurdy@craftontull.com with “ABMA RFP” in the subject line.
